HISTORY OF THE NATIONAL JUNIOR COLLEGE ATHLETIC ASSOCIATION

The idea for the NJCAA was conceived in 1937 at Fresno, California. A handful of junior college representatives met to organize an association that would promote and supervise a national program of junior college sports and activities consistent with the educational objectives of junior colleges.

The constitution presented at the charter meeting in Fresno on May 14, 1938, was accepted, and the National Junior College Athletic Association became a functioning organization.

Colleges represented at the charter meeting were Bakersfield, Chaffey, Compton, Fullerton, Glendale, Los Angeles, Pasadena, Riverside, Sacramento, San Bernardino, San Mateo, Santa Monica, and Visalia.

The initial activity sponsored by the NJCAA was track and field. Sacramento played host to the first National Junior College Track and Field Meet in 1939, which started a series of annual meets, unbroken except for three years during World War II. While the first meet drew only California schools, the second, in Modesto, in 1940, assumed a wider scope with participants from Phoenix, Arizona, and Trinidad, Colorado, in addition to the Californians.

While founded by California men, there was no intention for the NJCAA to be just a "West Coast Organization." This became apparent when Trinidad College's invitation to sponsor the 1941 track meet at Denver, Colorado, was accepted.

The NJCAA was fast gaining national recognition. At the 1941 meet in Denver, teams representing colleges from east of the Mississippi, joined southern and west coast members.

After Pearl Harbor, only one more meet was held during the war years. This was staged at Visalia, California, and was the last sponsored activity by the NJCAA until the spring of 1946, when the fifth National Junior College Track and Field Meet was held at Phoenix, Arizona.

In 1945, the NJCAA, weakened by the war and not yet ready to renew activities, had given its blessings to an invitational basketball tournament at Compton. The tournament mushroomed into a national activity by 1947, with teams participating from as far away as Washington and Louisiana. Other schools from the Great Lakes area, the middle west, and the east coast clamored for invitations that could not be provided. Clearly, a nationwide basketball program, sponsored by the NJCAA, was a necessity.

Compton invited the NJCAA to call a special meeting in connection with its 1947 tournament, to consider a national basketball program, from which grew the present regional and national tourney plan.

Attempts were made to carry on this extensive program of national competition, but lack of entries and financial hardships caused the curtailment of golf, tennis, boxing, gymnastics, and swimming after a three year trial. However, these events could be conducted at any time in the future when requests from five or more regions were filed.

In 1949 the NJCAA was reorganized by dividing the nation into sixteen regions. The officers of the association were the president, vice president, secretary, treasurer, public relations director, and the sixteen regional vice presidents. The *NJCAA Bulletin* was authorized and published as the official organ of the association. Among other official acts, policies for conducting regional and national events were written, the constitution was revised, the organization was incorporated as a non-profit corporation, and the first *NJCAA Handbook* was published. This booklet gave status and stability to the organization that it had lacked in previous years.

Hutchinson, Kansas, became the site for the NJCAA Championship Basketball Tournament. Co-sponsors, the Lysle Rishel Post, American Legion, and the Hutchinson Junior College hosted this event in 1949.

The growth of the organization and the work of the committees outmoded the 1950 handbook, necessitating a second edition in 1952.

The NJCAA, working with the American Association of Junior Colleges Sub-Committee on Athletics, wrote and adopted the "Statement of Guiding Principles for Conducting Junior College Athletics" in 1953. The Statistics Bureau, at this time, was concerned with regional and national records only. In 1954 it expanded its scope to include individual and team scores of all member colleges.

Steps were taken to obtain low cost and reliable insurance for the NJCAA members. The Insurance Committee was responsible for obtaining the NJCAA Insurance Plan from the Associated Agencies. The plan, as adopted, covered major and catastrophic accidents with a minimum cost to each member school.

The NJCAA obtained representation on various national rules committees during 1954. Also, the name, *NJCAA Bulletin*, was changed to the JUCO REVIEW.

The Statistics Bureau became the Service Bureau in 1955 and began to compile and release weekly ratings of member college basketball teams. For the first time, the official All-American Junior College Basketball Teams were selected by the Bureau. Previous to this time, the All-Region and All-NJCAA tournament teams were considered to be the All-American Teams.

The important contributions to the NJCAA program in 1956 included the addition of football statistics and rankings to the Service Bureau program. The adoption of policies for conducting the National Football Championship and awarding the contract to the West Hollywood Kiwanis Club, was culminated in the initial game, played at the Los Angeles Coliseum. Coffeyville, Kansas, defeated Grand Rapids, Michigan, for this first NJCAA Football Championship.

In 1957 another important step was taken by the NJCAA. An affiliation with the National Federation of State High School Athletic Associations (NFSHSAA), and the National Association of Intercollegiate Athletics (NAIA) was formed to work together on many common interests. The primary emphasis, in the initial state, was placed on jointly producing playing rules in football, six-man football, soccer and baseball, and the continued use of common codes in basketball, track and other major sports. This affiliation was christened the National Alliance.

By 1958, the scope of the NJCAA had been recognized by other national organizations and the association was asked to participate in various national projects. These included (1) the People to People Sports Committee, a foundation to promote international good will through sports, (2) President Eisenhower's Physical Fitness Commission, (3) a study on equipment and supplies for physical education, athletics and recreation, sponsored by the Athletic Institute and the American Association for Health, Physical Education and Recreation, and (4) the publication for the first edition of the *Blue Book of Junior College Athletics* by McNitt, Inc.

Baseball entered the national program during this year when the NJCAA Invitational Tournament was held at Northeastern Oklahoma A & M College, Miami, Oklahoma.

The legislative assembly of 1959 approved a National Championship Baseball Tournament, with the Grand Junction Chamber of Commerce and Mesa College of Grand Junction, Colorado, as the first co-sponsors of the event. Authorization was also granted to conduct National Invitational Tournament in golf, tennis, wrestling and cross-country. Odessa, Texas; Rochester, Minnesota; Farmingdale, New York; and Alfred, New York, were chosen as the sites for these events.

National Invitational Meets in swimming and rifle were sanctioned in 1960. These and other recent additions to the national program pointed to a need for a revised handbook. Money was allocated for its printing in 1961.

In addition to the printing and distribution of the new handbook in 1961, the JUCO REVIEW publication site was changed from Ogden, Utah, to Buffalo, New York. A newspaper known as "Junior College Sports" was published in Grand

Junction, Colorado, and the NJCAA played an important supporting role in this new venture. The year 1961 was also the first NJCAA Invitational Soccer Tournament in Middletown, New York.

All-American awards in soccer were approved by the 1962 legislative assembly. This year marked the entrance of the NJCAA into the Basketball Federation of the United States of America, the United States Gymnastics Federation and the United States Track and Field Federation.

In 1963, the NJCAA became a member of the United States Olympic Committee and was granted ten (10) votes on the committee and one representative on the forty-six (46) member Board of Directors. Representation on the NCAA Rules Committee in Track and Field, Wrestling, and Basketball was obtained during this period.

An agreement was reached with the Alee Shrine Temple of Savannah, Georgia, to bring the NJCAA Championship Football Game back into the national program in 1964 after a lapse of four years. This game was named the NJCAA Shrine Bowl.

The Chamber of Commerce and Mesa College of Grand Junction, Colorado, were awarded a new five year contract in 1965 to conduct the NJCAA Championship Baseball Tournament. Also, in 1965, the NJCAA was given a voice on various U.S. Olympic Games Committees and our representatives were active in formulating plans for their sports in the overall Olympic program.

The rapid growth of wrestling in the junior colleges and the resulting increase in the number of teams coming to the National Invitational Wrestling Tournament warranted the establishment of a national championship event in this sport in 1966. Once again revisions were made in the *NJCAA Constitution and By-Laws*, and the *Handbook*, was brought up to date in preparation for printing a fourth edition in 1966.

Negotiations were completed for two postseason football games. One sponsored by the Southwest Grid Classic, Inc., was called the Wool Bowl, and was played at Roswell, New Mexico. The second, named the Silver Bowl, was sponsored by Sterling College and the Sterling Rotary Club in Sterling, Kansas. Both bowl games were played for the first time in the fall of 1966. This same year a new 10 year contract was closed with the Lysle Rishel Post 68, American Legion, and Hutchinson Community Junior College of Hutchinson, Kansas, to continue to conduct the NJCAA Basketball Tournament at its present site.

The American Medical Association Committee on the Medical Aspects of Sports invited the organization to participate in their activities in this field. Also a liaison committee between the AAJC and the NJCAA was formed.

The year 1967-68 was one of many changes in the NJCAA. Membership stood at 391 colleges. The 1967 legislative assembly approved a grant-in-aid to Michael Mould, Keystone Junior College, LaPlume, Pennsylvania, to write a complete history of the NJCAA to fulfill a requirement for the completion of his doctorate degree at Springfield College, Springfield, Massachusetts.

In 1968 the legislative assembly reorganized the administrative structure from the 16 regions, established in 1949, to 19 regions. This was accomplished by dividing Region VIII, Region I, and Region XV to form three new regions. Membership had now reached 419 colleges.

The NJCAA, for the first time, conducted its own Olympic Trials in basketball. A squad of ten players competed in the final trials in Albuquerque, New Mexico. Athletes of member colleges also competed in Olympic Trials for wrestling and track and field.

A third post season football game, sponsored by the El Toro Foundation of Yuma, Arizona, was added to the football program. Called the El Toro Bowl, its first competition came in 1968.

Membership in the United States Collegiate Sports Council, the United States Baseball Federation, and the United States Wrestling Federation were accepted by the NJCAA in 1968, and a National Invitational Gymnastics Meet was added to the program.

In 1969 the appointment of George E. Killian as full-time Executive Director was approved by the legislative assembly, and the new office was officially opened August 1, 1969, in the Hilton Inn, Hutchinson, Kansas.

At the time of the 1970 legislative assembly, membership had increased to 476 colleges. A National Invitational Bowling Tournament was added to the program. Also, a Scholarship and Grant-In-Aid Committee was established to study existing practices and to make recommendations for future appropriate actions.

Two post season football games, the Mid-American JUCO Bowl and the Green Country Shrine Bowl were added in 1971, along with National Invitational Championships in Ice Hockey and Judo. The membership reached an all time high of 501 members.

The year 1972 saw the addition of decathlon, fencing, and indoor track to the growing Invitational Championship scene. The Championship football game was moved to Yuma, Arizona, from Savannah, Georgia, and became known as the Sunkist El Toro Bowl. The membership climbed to 513 for the 1971-72 college year.

In 1973 the legislative assembly reorganized the administrative structure from 19 regions, established in 1968, to 21 regions. This was accomplished by dividing Region III and Region XIX to form two new regions. Membership reached a record 533.

1974 saw the addition of three invitational championships in volleyball, basketball, and tennis for women. The NJCAA "amateur rule" was completely rewritten by the Board of Directors. Membership climbed to a record high of 547.

A major change in the structure of the NJCAA occurred in 1975 when the Board of Directors approved a Women's Division. National Championships for women were approved in volleyball, basketball and tennis. National Invitational Championships for women were slated in field hockey, skiing, gymnastics, track and field, softball, and swimming and diving. Membership climbed to a record 563.

The year 1976 saw the membership of the NJCAA reach 296 for its Women's Division, and 586 for its Men's Division. The Board of Directors reorganized the administrative structure from 21 regions to 22 regions by dividing Region XVII.

In 1976-77 the Women's Division sponsored four championship tournaments and eight invitational championships, while its membership grew to 345. 21 sporting events were offered to the 580 members of the Men's Division, including the revival of the Junior Rose Bowl. The Board of Directors approved the concept of divisional play in the sports of cross country, tennis and golf for the 1978-79 college year.

In 1977-78 the membership of the Women's Division soared to a high of 434; the Men's Division membership stood at 564. Five football bowl games highlighted the Men's Division program.

NJCAA WOMEN'S DIVISION

Philosophy

It is the basic belief of the Women's Division of the NJCAA that the athletic program for the women compliments the existing programs offered by the NJCAA. The Women's Program is an integral part of the total educational process, which fosters sound educational goals concurrent with those of the member institution.

Because of the uniqueness of the Community/Junior College, it is important to provide an organization which provides equal representation through the twenty-two elected regional directors for each division. The Women's Division of the NJCAA provides programs which afford opportunities for the participation of all community college students. Through the existing structure of the NJCAA, representatives of both the Men's and Women's Divisions work together to develop and maintain eligibility rules, which will be applied equally to all athletes, both male and female.

For those Community Colleges seeking an affiliation for their women's athletic program, the NJCAA offers an organization that can meet the individual needs of all students because it provides national competition for all eligible member schools through regional affiliation.

It is important to emphasize that the Women's Division is dedicated to meeting the needs of all women athletes, providing them with the highest caliber of national competition in a wide range of sports.

a. Entering freshmen enrolling for their first term in college must be high school graduates, or its equivalent, and carry as regularly enrolled students at least ten (10) hours of college work as listed in the official catalog of the Junior College in which they enroll.

NOTE: For the purposes of this Section, "equivalent" shall include a high school equivalency diploma or certification of the successful passing of an officially recognized and authenticated national test, such as the General Education Development Test.

(1) Entering freshmen whose high school class has not graduated and are completing their senior high school year and beginning their freshmen college year simultaneously, shall be eligible providing they complete form 1a (1) and carry at least 10 hours of college work as listed in the official catalog of the junior college in which they are enrolled.

b. In succeeding terms, students who are high school graduates, or its equivalent, or non-high school graduates, whose high school class has graduated, or have earned sufficient credit for graduation from the high school they were attending, must have passed at least ten (10) hours of college work with a grade-point average (GPA) of 1.50 or better during the term of their enrollment, as full-time students, previous to their competition. Any ten (10) hours of passing work in a term recognized in the catalog of the college may be used to determine the student's grade-point average, but all hours of a complete course (subject) must be counted.

NOTES: 1. The grade-point average shall be established by using the following scale: A-4 points; B-3 points; C, P, or S-2 points; D-1 point; and all others 0 points.

2. The word "term" means a quarter, a trimester or a semester.

c. Students who enroll for less than ten (10) hours of college work shall be classified as part-time students. Part-time students can become eligible by enrolling in ten (10) or more hours of college work subject to the instructions of Section 5e. Full-time students who become part-time after fifteen calendar days have elapsed from the beginning of the same term must reestablish their eligibility by having passed at least ten (10) hours of college work with a grade-point average (GPA) of 1.50 or better during the term of their enrollment, as full-time students, previous to their competition. Students must be enrolled in ten (10) or more hours prior to the first scheduled contest during a term, except for sports that begin prior to the first day of classes.

d. Students must not have graduated from a college (14th grade) either by diploma, degree, or certificate, which is a member of the NJCAA, or which has a varsity athletic program in the sport(s) they wish to participate.

e. Students must not have previously completed two (2) seasons in a given sport at any intercollegiate level.

f. Enrollment in ten (10) or more hours during a summer session or sessions at any college will affect the eligibility of a student.

Section 2.

a. Participation in any fraction of any regularly scheduled contest during the collegiate year shall constitute one (1) season of participation in that sport. Participation includes entry into an athletic contest and does not include dressing for such an event.
b. Students attending an NJCAA member college may be granted additional competition for reasons of "hardship", which is defined as that incapacity resulting from injury, illness, or emergency beyond the control of the student.
c. All decisions on hardships shall be referred to the Office of Eligibility.
d. Consideration will be given only to those hardships which originate at a NJCAA member college.

Section 3.

a. Students, in order to participate in any term, must be in regular attendance within fifteen (15) calendar days from the beginning of classes of the term in which they participate.

NOTE: This fifteen day rule may also apply to the starting date of a mini-session within a regular session, providing the starting date of the mini-session is prior to the first contest of the involved sport and is a published date in the college catalog.

b. Students who become ineligible during a given term become ineligible for participation ten (10) calendar days after the end of the given term. Such students may compete in regional and national events scheduled beyond the ten (10) calendar day period, if the regular season schedule of the sport has ended before or on the last day of the term, as determined by the published schedule of the junior college in which the students have participated and have been enrolled.
c. Students who establish their eligibility during a given term become eligible for participation ten (10) calendar days after the end of the given term; provided, however, that they shall become eligible prior thereto by the filing of an eligibility blank, in which event they shall become eligible on the postmark date appearing on the envelope used for mailing the eligibility blank.
d. Students can withdraw, or drop from full-time to part-time status, from a junior college within fifteen (15) calendar days after the first scheduled day of classes during any term of attendance (providing they have not participated in a regularly scheduled athletic contest during that term), and return to the same junior college for a subsequent term.

Section 4.

Amateur players are those who engage in sports for physical, mental or social benefits they derive in participation and to whom athletics is an avocation and not a source for personal financial remuneration. In determining the amateur standing of students, the following guidelines have been established.

a. Students may accept scholarships and educational grant-in-aids from their institution which do not conflict with the governing legislation of this Association.
b. Officiating does not affect the amateur status of athletes, providing the compensation received does not exceed the going rate for such employment.

They shall not be employed to teach physical education classes or coach any sport in or by their institution.

f. Students may not be employed or receive compensation for teaching or coaching sports, skills or techniques in their sport, exept that they may be compensated as supervisors of children's sports programs, such as counselors in a summer camp or in a recreation department program and their duties may include teaching techniques or skills in their sport, provided that any instruction is a part of the overall terms of employment (teaching and coaching shall not exceed more than half of their employed time) and not on a fee-for-lesson basis.

g. Students who take or have taken any financial assistance, or have entered into an agreement, of any kind, to compete in professional athletics, shall not be eligible for participation in that particular sport with the exception of students who participated in professional baseball for not more than thirty (30) days after the opening of the season at a level no higher than Class A, shall be eligible to compete in all sports including baseball.

h. Whenever the amateur standing of a student is questionable and before competition begins in an activity sponsored by the NJCAA, it is the responsibility of an administrative officer of the college in which the student is enrolled to clear the status of the student in question.

i. Students may receive Grants-in-Aid in accordance with the provisions of Article VI of the By-Laws of the NJCAA.

j. Full-time students shall not try out with a professional sports organization while enrolled during any part of the academic year (i.e., from the beginning of the fall term through the completion of the spring term, including any intervening vacation period). Part-time students may try out providing they do not receive any form of compensation, other than actual expenses from the professional organization.

Section 5. a. I. Students who enroll in and attend one class, or participate in a regularly scheduled athletic contest prior to attending class, at any junior college and transfer at any time to another junior college, shall be ineligible for competition until a probationary period of one full academic year has been served at the junior college to which they transfer. However, such students will be immediately eligible if they transfer at the end of a term after having passed ten (10) hours with a 1.5 GPA, and have not participated in a regularly scheduled athletic contest in the same sport during the same academic year. These students must also satisfy all other NJCAA Rules of Eligibility and one of the following exceptions:

Each coach who has participants competing in the event shall be responsible for informing each member of the CODE.

II. Regulations of Conduct

   b. The responsibility for property damage shall be determined. Those responsible for such destruction will be called to account for such actions, and arrange for financial settlement to the party or parties concerned.
   c. Participants are obligated to show proper consideration for the rights and welfare of others. (Undue noise and disturbances may be considered violations of this regulation.)

ELIGIBILITY COMMITTEE of the NJCAA

1978-1979 Casebook

FOREWORD

During the 37th Annual Meeting of the National Junior College Athletic Association (NJCAA), held in Hutchinson, Kansas on March 11-15, 1978, the Board of Directors passed various amendments to the Eligibility Rules, which will become effective and applied retroactively as of August 1, 1978. All rules will apply to students who were in college prior to August 1, 1978, as well as new entering students. Eligibility Rule changes cannot adversely affect students currently enrolled in member institutions.

The following is a summary of some of the more important amendments:

Section 1 — Students will have unlimited number of terms to complete their eligibility of two (2) seasons in any one particular sport.

Section 2 — This is known as the hardship section and has been revised with no significant changes.

Section 4b — Students are allowed to officiate on any level providing the compensation does not exceed the going rate for such employment.

Section 4c — Snow skiing has been included with bowling and golf as those sports which students can receive remuneration beyond actual expenses for participation.

Section 4j — Students shall not try out with professional sports organizations during any part of the academic year which includes any time from the beginning of the fall term through the completion of the spring term.

Section 5c — The eighteen month countdown for non-college attendance continues when students are enrolled part-time.

The following cases are intended to assist the reader in interpreting the Rules of Eligibility. New cases have been added to illustrate the new and existing rules.

SECTION 1a

CASE I

Non-High School Graduates

SITUATION:

Junior College A permits students who have not graduated from high school or successfully passed an officially recognized equivalency test to enroll in its college as bona-fide freshmen students.

Are such students eligible to compete in the intercollegiate athletic program at Junior College A?

ANSWER:

No. Even though such students have met the entrance requirements of Junior College A, they have not fulfilled the requirements of the NJCAA. Providing their high school class has graduated, such students may become eligible by passing a minimum 10 hours with a GPA of 1.5 or better in a term previous to their competition.

CASE II

High School Equivalency Tests

SITUATION:

Do non-high school graduates who receive certification signifying that they have successfully passed an equivalency test other than the General Education Development test (G.E.D.) meet the requirements of this Section?

ANSWER:

No. Students do not satisfy the requirements of this Section until such time as a copy of such test is submitted to and approved by the Office of Eligibility.

CASE III

GED Test Results Delayed

SITUATION:

Student R, a non-high school graduate, passed the General Education Development (G.E.D.) test in August following the June graduation of his/her high school class. The agency that administered the test has regulations which will not permit the awarding of a certificate or diploma until one calendar year following graduation of the applicant's high school class.

Is Student R eligible to compete in the intercollegiate athletic program of Junior College A subsequent to the passing of the test, but prior to the lapse of the one year period?

ANSWER:

Yes. Student R becomes eligible to compete in the intercollegiate athletic program of Junior College A upon his/her successful passing of the G.E.D. test.

CASE IV

GED Test After College Enrollment

SITUATION:

Student R, a non-high school graduate, enrolls at Junior College A at the beginning of the fall term. During the term, Student R successfully passes the G.E.D. test.

Will it be necessary for Student R to wait until the completion of the term to participate?

ANSWER:

No. Student R will be eligible immediately upon notification that he/she has passed the test, if all other provisions of the NJCAA Rules are satisfied.

CASE V

GED Test after Transfer

SITUATION:

Student R, a non-high school graduate, enrolls at Junior College A. After fifteen days, Student R withdraws from Junior College A. Subsequently, Student R takes and passes the G.E.D. test.

If Student R enrolls in Junior College B, can he/she immediately participate in athletics based on the successful completion of the high school equivalency test?

ANSWER:

No. The fact that Student R enrolled at Junior College A and withdrew before completing the term will require a probationary period at Junior College B. As a non-high school graduate at Junior College A, Student R could have established his/her eligibility without the high school equivalency by completing one full term passing 10 hours with a 1.5 GPA.

CASE VI

Delayed High School Diploma

SITUATION:

Are students eligible to compete in the intercollegiate athletic program at the beginning of the spring semester at Junior College A, if they complete all requirements for high school graduation at the end of the first semester, but are not issued a high school diploma until the end of the spring semester?

ANSWER:

Yes. It will be necessary, however, for these students to secure a letter from the high school principal verifying the fact that they have met all requirements for high school graduation.

CASE VII

Remedial Program

SITUATION:

Are students eligible if they are placed in Junior College A's remedial program and enroll in ten or more hours of non-credit courses listed in their official catalog?

ANSWER:

Yes. All that is necessary is that these hours of college work be listed in the official catalog of Junior College A.

CASE VIII

Determination of Credit Hours

SITUATION:

Student R enrolls in a Social Studies course that meets three hours a week and carries three hours credit, an English course that meets four hours a week and carries four hours credit, and a Drawing course that meets twice a week for three hours each and carries two hours credit.

Is such student carrying nine or thirteen hours of college work?

ANSWER:

Nine. Each college determines the number of hours of credit students receive for courses listed in the college catalog.

CASE IX

Evening Division

SITUATION:

Are students who take part or all of their ten hours of college work in the Evening Division at Junior College A eligible?

ANSWER:

Yes. These hours count, providing the courses offered in the Evening Division are the same or equivalent to the ones being offered in the day school curriculum in which the students are enrolled.

CASE X

Clock Hours

SITUATION:

Some Junior Colleges use clock rather than credit hours in determining their students' load.

May clock hours be used to satisfy the requirements of this Section?

ANSWER:

Yes. These hours count providing the number of clock hours the students take are equivalent to ten "credit" hours of college work. Normally, thirty clock hours are equal to the ten hours required by this Section; however, member colleges that use clock hours must submit their plans for conversion to the Office of Eligibility for approval prior to filing their eligibility lists.

CASE XI

Credits by Examination

SITUATION:

At Junior College A, students are permitted to take examinations for college credit.

Can the credits granted by examination be used for the required ten (10) hours of enrollment for participation in athletics?

ANSWER:

Yes. The credits by examination can be used as part of the 10 hours only for the term which the credits are listed on the official transcript.

CASE XII

Clep Tests

SITUATION:

Student R enrolls in 5 hours of college work and 5 hours of CLEP tests, to be administered during the term.

Is Student R eligible to compete during the term?

ANSWER:

Yes. If, however, Student R does not pass sufficient CLEP hours to maintain the minimum 10 hour requirement, he/she would immediately become ineligible.

SECTION 1a (1)

CASE I

Transfer of Dual Enrollee

SITUATION:

After the completion of form 1a (1), Student R enrolls at Junior College A and participates as a member of the varsity tennis team. Junior College A is located within Student R's home district.

At the completion of one term at Junior College A, Student R graduates from high school and would like to transfer and enroll at Junior College B, located in another state.

Is Student R automatically eligible, based on the fact that he/she is a new high school graduate?

ANSWER:

No. All provisions for transfer students must be followed after Student R's initial enrollment at Junior College B.

CASE II

Dual Enrollment of Non-High School Graduate

SITUATION:

Student R did not graduate with his/her high school class and enrolls in Junior College A as a full-time student while simultaneously attending high school to fulfill one requirement for graduation.

Is Student R eligible to compete in athletics while completing the high school requirement, if the 1a (1) form is properly signed?

ANSWER:

No. The 1a (1) form cannot be used in this case, because Student R should have graduated at the completion of his/her senior year. One (1) term must be completed at Junior College A before Student R can compete in athletics.

The 1a (1) form is for advanced students who are completing their senior year in high school and simulatanеously enrolled in college.

NOTE: A student's graduating class is the class in which a student is enrolled in the 9th grade and which subsequently completes eight consecutive semesters of high school work culminating in graduation.

SECTION 1b

CASE I

Incomplete

SITUATION:

Student R enrolls for twelve (12) hours at Junior College A and passes nine (9) hours with marks of C or better and receives an Incomplete in a three (3) hour course.

Is Student R eligible to compete in the intercollegiate athletic program at Junior College A for a subsequent term?

ANSWER:

No. Students who initially enroll in ten or more hours must pass at least ten hours with a 1.5 GPA, unless complete withdrawal or withdrawal to part-time status occurred within fifteen (15) calendar days from the beginning of a term. Student R may become eligible by successfully completing the three hour course, providing his/her GPA for the twelve hours is 1.5 or better. The course must be completed within the time limit and in accordance with the rules and regulations of Junior College A.

CASE II

Computation of GPA

SITUATION:

Student R earned the following grades at Junior College A during the fall semester of his/her first year:

COURSE	CREDIT HOURS	GRADE	QUALITY POINTS
1	5	D	5
2	3	C	6
3	3	C	6
4	3	C	6
5	2	F	0
	16		23

Is Student R eligible to compete in the intercollegiate athletic program at Junior College A for the spring semester?

ANSWER:

Yes. Student R's GPA on sixteen hours is 1.44; however, the NJCAA Rules of Eligibility require a student to pass only ten hours with a GPA of 1.50 or better. Therefore, Student R need only use Course 1, 2, and 3, which totals eleven hours and gives him/her seventeen quality points with a 1.55 GPA. Courses 4 and 5, as far as the NJCAA is concerned, have no bearing on Student R's eligibility.

CASE III

Computation of GPA

SITUATION:

Student R earned the following grades at Junior College A during the fall semester of his/her first year:

COURSE	CREDIT HOURS	GRADE	QUALITY POINTS
1	4	C	8
2	3	D	3
3	3	D	3
4	1	C	2

Is Student R eligible to compete in the intercollegiate athletic program at Junior College A for the spring semester based on using the four hours of Course 1, the three hours of Course 2, the one hour of Course 4, and two hours of Course 3?

ANSWER:

No. This Section requires that in computing a student's GPA, all hours of a completed course must be counted. Student R must compute his/her GPA based on eleven hours with 16 Quality Points for a GPA of 1.46.

CASE IV

Part-time Enrollment

SITUATION:

Student R enrolled in Junior College A for the fall semester and passed twelve hours with a GPA of 1.52. He/she enrolled for nine hours in the spring semester, but failed to pass any of these hours for a GPA of 0.00.

Is Student R eligible to compete in the intercollegiate athletic program of Junior College A, if he/she enrolls for ten or more hours in the subsequent fall semester?

ANSWER:

Yes. Student R's eligibility is determined by the scholastic record earned in his/her last term of enrollment as a full-time student, subject to the provisions of Section 5e.

CASE V

Eligibility of a Non-High School Graduate

SITUATION:

Student R matriculates as a full-time student for three years in High School M and then withdraws at the end of his/her junior year with: (a) less credits than are necessary for graduation, or (b) sufficient credit necessary for graduation. The following fall, Student R enrolls in Junior College A and in the first term of attendance passes at least ten hours with a GPA of 1.50 or better.

Is Student R eligible to compete in the intercollegiate athletic program of Junior College A in the subsequent term?

ANSWER:

No, as to (a). Even though Student R passed at least ten hours with a GPA of 1.50 or better in the first term of attendance at Junior College A, he/she is not eligible to compete in the intercollegiate athletic program because of the withdrawal from high school with less credits than are necessary for graduation and the high school class he/she started with had not as yet graduated.

Yes, as to (b). Student R is, however, eligible in this situation as he/she had earned sufficient credits necessary for graduation at the time of withdrawal from High School M.

CASE VI

Transfer of Quarter Hours to Semester Hours

SITUATION:

Student R enrolls at a four-year college in 14 quarter hours and passes 12 with a GPA of 1.8, and subsequently transfers to Junior College B which is on a semester system.

Since the registrar at Junior College B equates 12 quarter hours comparable to a student passing 8 semester hours, will Student R become eligible to compete at Junior College B?

ANSWER:

Yes. Section 1b requires that a student pass 10 hours in his/her last term at the college last attended. Conversely, students who transfer from a school on the semester system may not transpose those hours to quarter hours in an effort to establish their eligibility.

SECTION 1c

CASE I

Part-time Enrollment-Transfer

SITUATION:

What is the eligibility status of a student who has never been enrolled in Junior College A for ten hours of credit and subsequently transfers to Junior College B?

Is a probationary period required before the student is eligible to compete in the intercollegiate athletic program at Junior College B?

ANSWER:

No. The status of the student while enrolled at Junior College A was that of a part-time student. The requirements of Section 5a do not apply to such a student. The grades which were attained at Junior College A are of no consequence and will not affect the student's right to compete in the intercollegiate athletic program at Junior College B.

CASE II

Withdrawal From Full-time to Part-time Status

SITUATION:

Is the eligibility status of students affected if they are enrolled in 10 or more hours of credit, and during the term withdraw below ten (10) credit hours?

ANSWER:

Yes. Students involved in the intercollegiate athletic program at a Junior College must withdraw from all such activities immediately upon changing their status from that of full-time to part-time students. If the withdrawal occurred after fifteen (15) calendar days from the beginning of the term, the students must reestablish their eligibility by passing a minimum of ten (10) hours with a GPA of 1.50 or better during a subsequent term of enrollment previous to any athletic competition.

Students who have not participated in any regularly scheduled contests and withdraw within fifteen (15) calendar days from the beginning of the term, are eligible in a subsequent term, subject to the restrictions of Section 5e.

Students who during a term drop from full-time to part-time status and at the completion of the term transfer to another college, must serve the probation as required in Sections 5a and 5b.

CASE III

Part-time to Full-time

SITUATION:

Student R, who had never previously attended college, enrolls in Junior College A for the fall semester for nine hours of credit, which he/she passes with a GPA of 1.50 or better. Basketball at Junior College A spans the fall and spring semester.

Is Student R eligible to compete on the intercollegiate basketball team of Junior College A during the spring semester, if he/she enrolls as a full-time student?

ANSWER:

No. This Section, read in conjunction with Section 5e, requires a student to be in full-time attendance in the junior college at the time the sport commences, in order to be eligible to compete in that sport during the following term.

CASE IV

Mini Course

SITUATION:

Student R enrolls in College A as a full-time student. After four weeks, Student R withdraws from a course and drops to part-time. College A offers a "mini" course, which begins at mid-semester. Student R enrolls in the "mini" course, which will again bring his/her status to a full-time student.

After enrolling in the "mini" course, is Student R eligible at College A to participate in intercollegiate athletics?

ANSWER:

Yes. Student R is eligible if the season begins after enrollment in the "mini" course. It should also be noted that the "mini" course must be listed in the college catalog.

SECTION 1d

CASE I

Eligibility After Diploma

SITUATION:

Student R was awarded a diploma upon completion of a one year drafting program at Junior College A. After the lapse of a number of years, Student R enrolled in the two year construction technology curriculum at Junior College A.

Does the diploma preclude Student R from being eligible to compete in the intercollegiate athletic program of Junior College.

ANSWER:

No. Even though awarded a diploma, Student R remained eligible because he/she had not graduated from the 14th grade of Junior College A.

CASE II

Graduation From Non-Member College

SITUATION:

Student R attends a non-member vocational school and graduates from the 14th grade. The only sport which the school provides for its students is basketball.

Can Student R transfer to a member junior college and be eligible to participate in baseball?

ANSWER:

Yes, providing Student R transfers eligible and meets all other provisions of the NJCAA Rules of Eligibility. Student R is eligible only in those sports which the non-member college does not offer.

CASE III

Participation after 14th Grade

SITUATION:

After two years of college attendance, Student R has completed all requirements for graduation at Junior College A. Student R decides not to make application for his degree and remains at Junior College A the following year to pick up additional courses.

Will Student R be eligible in those sports which he/she has not participated in for two seasons?

ANSWER:

Yes. Students are allowed two (2) seasons in any one sport regardless of how many hours they have completed in college, providing they have not actually received a diploma, degree, or certificate after completion of the 14th grade.

221

SECTION 1e

CASE I

Participation at Senior College

SITUATION:

Student R participates in one J.V. basketball contest at a Senior College. The next year Student R transfers to Junior College A.

How many seasons in basketball does Student R have at Junior College A?

ANSWER:

One. This section, read in conjunction with Section 2a, allows only two (2) seasons in any one sport regardless of the amount of playing time. It should also be noted that J.V. participation is considered the same as varsity participation.

CASE II

Definition of a Season

SITUATION:

Student R attends Junior College A for one term and participates as a member of the fall baseball team. At the completion of the term, Student R does not enroll at any college.

The next school year, Student R enrolls at Junior College B and after satisfying the transfer rules, is permitted to participate in the spring baseball program.

How many seasons of baseball eligibility has Student R completed after the spring season at Junior College B?

ANSWER:

Student R has completed one season in the Fall and one season in the Spring, and will have one season left to compete in Fall and Spring baseball.

CASE III

Definition of a Season

SITUATION:

Student R attends a four-year college A during the fall term and participates as a member of their golf team. After completing the term passing 15 hours with a 3.0 GPA, student R withdraws from Junior college A. The next school year, Student R enrolls at Junior College B and participates in golf during the Spring season.

Is Student R participating in his/her first or second season of spring golf?

ANSWER:

First. Since Fall golf is considered a separate sport season from Spring golf, Student R has two seasons to compete during the Spring golf season.

CASE IV

Number of Seasons

SITUATION:

Student R participates in two seasons of fall golf.

How many seasons of spring golf does Student R have left?

ANSWER:

Two. Section 10 provides for a Fall season and Spring season in the following sports: Baseball, Golf, Softball/Slow Pitch, Softball/Fast Pitch, and Tennis.

SECTION 1f

CASE I

Repeating a Course in Summer School

SITUATION:

Student R enrolled for twelve hours of work at Junior College A during the spring term. This load consisted of four courses, each of which carried three hours of credit. Student R passed three of them, but received a mark of F in the fourth one. During the summer, Student R repeated the course which he/she failed and earned a passing grade.

Is Student R eligible to compete in the intercollegiate athletic program at Junior College A for the following term?

ANSWER:

No. Courses taken or repeated in a summer and/or inter-term ("mini") session in no way affect the eligibility status of the students, unless the student enrolls in 10 or more hours.

NOTE:

In rare instances, some schools provide in their catalogs that inter-term ("mini") sessions are part of the preceding or subsequent term, in which case the courses taken in such sessions shall be counted in determining the eligibility status of the students; providing prior approval is obtained from the Office of Eligibility and the appropriate Regional Director.

CASE II

Two Summer Sessions

SITUATION:

The school year at Junior College A consists of a fall and spring semester. It also conducts two consecutive summer sessions of six weeks each. The courses offered in the summer sessions are the same as those offered during the regular school year and carry the same number of credit and contact hours.

Student R passed ten hours of work with a GPA of 1.38 during the spring semester at Junior College A. He/she enrolled for five hours each in both summer sessions and passed the ten hours with a GPA of 2.12.

Is Student R eligible to compete in the intercollegiate athletic program at Junior College A for the following fall semester?

ANSWER:

Yes. If a student is able to enroll for ten or more hours of work in a summer session or sessions and the courses taken are equal in credit and contact hours to courses offered during the regular school year, then such session(s) shall count in determining the eligibility status of the student.

It should be noted that a student who enrolls in such a program may become ineligible, if he/she does not pass at least ten hours with a GPA of 1.50 or better, even though the student may have met this requirement in the previous regular semester of enrollment.

SECTION 2a

CASE I

Dresses But No Participation

SITUATION:

Student R, a member of a team competing on an intercollegiate level, in an NJCAA certified sport in a junior college or a four-year school, dresses for and is a member of the squad or team for one game or event on the college's published schedule. Student R did not compete in such athletic

contest and immediately thereafter returned his/her uniform and withdrew as a member of the squad or team.

Is Student R charged with a year of competition in that particular sport?

ANSWER:

No. Student R will not be charged with a season of competition, as he/she did not actually participate in an athletic contest in that sport. Even if Student R had participated in the pre-game warmup and had his/her name included in the official game book, the student would not be charged with a season of competition.

CASE II

Injury Hardship

SITUATION:

Student R, a member of the wrestling team of Junior College A, was injured in the first meet of the season, and as a result of the injury, was incapacitated for the remainder of the regular season but did enter the regional tournament. Within the first few minutes of the first match, Student R aggravated the original injury and withdrew from the match and the balance of the tournament.

Does such participation by Student R constitute one season of competition?

ANSWER:

Yes. Hardship consideration will be granted in only those cases in which the injury occurred during the first part of the regular season schedule and the injured athlete was unable to complete the balance of the season. If Student R had not attempted to compete in the regional, it is probable that he/she would not have been charged with one full season of competition.

SECTION 2b

CASE I

Completion of Term Hardship

SITUATION:

Student R completes ten (10) hours with a 1.4 GPA during the fall term. In the subsequent spring term, Student R enrolls in fifteen hours and midway through the term is forced to withdraw because of a serious illness.

Would the circumstances which occurred during the spring term warrant hardship consideration by the Office of Eligibility so that Student R can participate in athletics during the following fall?

ANSWER:

No. Student R will not be eligible for the fall term because he/she was not successful in in completing ten (10) hours with a 1.5 GPA during the term previous to the illness.

SECTION 2d

CASE I

Hardships from Senior College Transfers

SITUATION:

While in attendance at a Senior College, Student R drops out at mid-term because of an illness. Subsequently, Student R decides to enroll at Junior College A.

Since the illness forced Student R to withdraw, could a hardship be granted so he/she can participate immediately at Junior College A?

ANSWER:

No. The NJCAA will not consider the hardship because Student R was not attending a member college at the time of the illness. Student R will be required to serve 18 calendar weeks on probation before participating in any sport.

SECTION 3a

CASE I

Mini-Courses

SITUATION:

September 1 is the beginning date of the fall term, and Student R enrolls in 9 hours. On October 15, Student R enrolls in a 3 hour mini-course, which has the same ending date as the regular term.

Is Student R eligible to participate in basketball, which begins on November 17?

ANSWER:

Yes. The mini-course must be a cataloged course having a common ending date with the regular term and available to all students. Student R would not have been eligible if the mini-course was offered after the start of the basketball season.

SECTION 3b

CASE I

Participation After Completion of Term

SITUATION:

The last day of the spring semester at Junior College A, as shown on its academic calendar, is April 30. The last golf match, as shown on their published schedule, is May 12th. Student R, a member of the golf team, completes the spring term with only seven (7) passing hours.

Is Student R eligible to compete in the Regional Tournament scheduled for May 15th?

ANSWER:

No. Student R remains eligible for a period of ten days after the completion of the spring semester.

If the last regularly scheduled golf match would have been scheduled before the last day of the spring term, Student R would have been eligible for the duration of Regional and National Tournaments.

CASE II

Dropping Ineligibles

SITUATION:

During the fall term, Student R maintains enrollment in 12 quarter hours. After final tests are completed and grades issued, it is determined that Student R failed a three (3) hour course.

When must Student R discontinue participation on the basketball team, which began its regular season schedule during the fall term?

ANSWER:

Student R must be dropped from the squad on the tenth (10th) day after the end of the fall term. The last day of a term shall be listed on the

225

NJCAA eligibility form and is determined by the published date in the college catalog.

SECTION 3c

CASE I

Adding Players to Roster

SITUATION:

The last day of the spring semester at Junior College A, as shown on its academic calendar, is May 15th. The regular baseball schedule ends on May 10th.

Can students who were not eligible during the spring term participate in post-season play, if they pass 10 hours with a 1.5 GPA and meet all other provisions of the NJCAA Rules of Eligibility?

ANSWER:

No. Once the regular season schedule has ended, no additions can be made to the team's roster. It should be noted that because the regular season schedule ended before the last day of the term, all students who were team members during the spring term remain eligible through all post-season games, regardless of their grades at the completion of the term.

CASE II

Adding Player After Completion of the Term

SITUATION:

The last day of the spring semester at Junior College A is May 10th and the last regularly scheduled golf meet is May 12. The Regional Tournament begins May 21.

Can students who were not eligible during the spring semester but re-established their eligibility at the completion of the term participate on May 12 and in the Regional Tournament?

ANSWER:

Yes. Since the regular season schedule extended past the last day of the term, students who reestablished their eligibility may be added at the completion of the term and anyone who becomes ineligible must be dropped from the squad as of the same date. An eligibility form must be submitted with a postmarked before the contest to show the transition.

CASE III

Adding Players After Final Tests

SITUATION:

Student R, who is ineligible to compete in basketball at Junior College A during the fall quarter, passes twelve hours with a GPA of 2.12 in that quarter. Junior College A has a regular scheduled game on the day after the end of the fall quarter.

Is Student R eligible to compete in this game?

ANSWER:

Yes. Student R may play in this game providing Junior College A files an eligibility form for Student R postmarked prior to the scheduled time of the game.

It should be noted that members of the team who become ineligible during the fall semester cannot compete in any games subsequent to the postmarked date of the eligibility form for Student R.

SECTION 3d

CASE I

Withdrawal Within 15 Days

SITUATION:

Student R completes the first quarter at Junior College A as a full-time student. After enrolling for twelve hours in the second quarter, the student attends only one class before withdrawing on the second day of the quarter.

Is Student R eligible for track which begins during the third quarter, if he/she enrolls as a full-time student?

ANSWER:

Yes. Student R can withdraw within 15 calendar days after the first scheduled day of classes during any term of attendance and return to the same Junior College for a subsequent term, providing the student did not participate in any scheduled contests during the fifteen day period.

CASE II

Part-time Withdrawal

SITUATION:

Fall term at Junior College A begins on September 1. According to their academic policy, students are allowed to drop all or any classes until September 20, without any penalty and full refund of tuition.

Student R initially enrolls in twelve (12) hours and drops a three (3) hour class on September 17. At the completion of the term, Student R receives nine (9) hours of passing grades with a 3.0 GPA.

Will Student R be immediately eligible the next term to participate in those sports which begin their schedule during that term?

ANSWER:

No. The provisions of Section 3d allows students to withdraw or drop from full-time to part-time within fifteen (15) calendar days from the first scheduled day of classes. Student R must pass a minimum of ten (10) hours with a 1.5 GPA previous to his/her competition.

CASE III

Part-time Withdrawal

SITUATION:

During the fall term Student R initially enrolls in 12 hours and drops a three (3) hour course within 15 calendar days from the beginning of the term. At the completion of the term, Student R receives 9 hours of failing grades.

Would Student R be eligible in a subsequent spring term?

ANSWER:

Yes, providing Student R passed 10 or more hours with a 1.5 GPA during the last term of enrollment in 10 or more hours. Because Student R dropped below 10 hours within 15 calendar days, he/she would be considered a part-time student during the fall term.

SECTION 4d

CASE I

Fee For Lesson

SITUATION:

Student/athlete B would like to work in a golf or tennis pro shop giving lessons during the summer months.

May such student give lessons if he/she charges a nominal fee to interested parties?

ANSWER:

No. A student may, however, give instruction when incidental to his/her total job (not consuming over 50% of his/her working time). In addition, the student/athlete's wage must be on a fixed hourly, weekly, or monthly basis that is commensurate with the going rate for the student's employment.

SECTION 4g

CASE I

Professional Participation

SITUATION:

Non-student R played professional soccer prior to initially enrolling at Junior College A.

Does this participation preclude such student from competing on their basketball team?

ANSWER:

No. Student R's amateur standing in all sports except soccer would be retained.

CASE II

Participation With Amateur Team

SITUATION:

Student R participates as a member of a Canadian Amateur Hockey Association team before enrolling in Junior College A, which supports a hockey team. Will this participation jeopardize the individual's eligibility for participation in intercollegiate hockey at an NJCAA member institution?

ANSWER:

No. A student participating in any league under the jurisdiction of the Amateur Hockey Association of the United States or the Canadian Amateur Hockey Association (except the Major Junior A hockey leagues sponsored by CAHA) would be eligible to compete without adversely effecting the student's eligibility at an NJCAA member school.

CASE III

Amateur Contracts

SITUATION:

Before enrolling at Junior College A, Student R participated with a professional soccer team under an amateur contract agreement.

Is Student R eligible to participate in soccer at Junior College A?

ANSWER:

No. Student R is not eligible for soccer at an NJCAA member college because of his/her entering into an agreement (amateur contract) with a professional soccer organization.

CASE IV

Professional Baseball

SITUATION:

Before initially enrolling at Junior College A, Student R participated with a

Class A baseball team. Student R was unconditionally released after 28 days from the opening day of the season.

Has Student R met the provisions of this section to be eligible in baseball at Junior College A?

ANSWER:

Yes, providing that confirmation of the same is received by the Regional Director and Office of Eligibility from the National Association of Professional Baseball Leagues:

225 Fourth Street South
P.O. Box A
St. Petersburg, Florida 33731

CASE V

Professional Baseball

SITUATION:

In July, Student R signs to play with Team X, a professional baseball team. In April of the following year, Student R is released before the season begins. During this period of time, the student did not participate in any league sanctioned games.

Is Student R eligible to participate in baseball at Junior College A?

ANSWER:

Yes. Even though a Professional Baseball Contract was signed, Student R retained his amateur status because he did not participate in any games.

SECTION 5a

CASE I

Method of Counting 18 Calendar Weeks

SITUATION:

Student R transfers to his/her home district college and is required to serve a probationary period of 18 calendar weeks before participating in any athletic events.

How does one determine the actual date which Student R can participate?

ANSWER:

The probationary period begins the day Student R attends classes as a full-time student (10 or more hours). The procedure is to count full weeks (7 days) and continue through the 18th week.

CASE II

Summer School

SITUATION:

Student R attends Junior College A and at the completion of the spring term passes 10 hours with a 1.3 GPA.

Since Junior College A does not offer a summer school, can Student R attend Junior College B, which offers a full summer school program to reestablish his/her eligibility for the fall term at Junior College A?

ANSWER:

Yes. However, once Student R transfers to Junior College B and enrolls in 10 or more hours, he/she would have to follow the transfer rules in order to transfer back to Junior College A.

CASE III

Requirement for Probation

SITUATION:

Student R is required to serve a probationary period of 18 calendar weeks at Junior College A as a result of transferring ineligible from a senior college. The first semester at Junior College A begins on September 15 and ends on January 25.

At the end of eighteen calendar weeks at Junior College A (January 19), can Student R begin participation on the basketball team even though the semester has not ended?

ANSWER:

No. Students serving 18 weeks on probation are not eligible until they serve the required time and *also complete a term passing a minimum of ten (10) hours with a 1.5 GPA.*

CASE IV

Requirements for Probationary Term

SITUATION:

Student R is required to serve a probationary period of one full academic year at Junior College B. During the first term, Student R enrolls in 12 hours and withdraws from three hours before the term ends, and as a result completes 9 hours with a GPA of 3.00.

Would this term be considered as one term of Student R's probationary period?

ANSWER:

No. Student R must be a full-time student throughout the probationary period. Withdrawing from the 3 hour course placed Student R's status as a part-time student.

CASE V

Probationary Period

SITUATION:

Student R is required to serve a probationary period of one full academic year. During the first term of attendance, Student R enrolls in 12 hours. At the end of the term, his/her transcript indicates 6 hours of D's and 6 hours of F's.

Would this term be considered as one of the probationary terms?

ANSWER:

Yes. The fact that Student R received grades indicates that he/she was enrolled as a full-time student during the term; however, Student R's academic performance would not allow him/her to compete in a subsequent term.

CASE VI

Double Transfer

SITUATION:

Student R attends Junior College A for one full term. Student R transfers to Four-Year College X for 2 quarters, and Non-Member Junior College Y for one quarter. At all three colleges, Student R passes 10 hours with a 1.5 GPA.

Student R's next transfer is to Junior College B. Would he/she be eligible to participate in athletics?

ANSWER:

Yes, providing Student R meets all other provisions of the NJCAA Rules of Eligibility. Student R's attendance in non-member colleges for one academic year allows him/her to transfer to any junior college.

CASE VII

Double Transfer

SITUATION:

During the last term at Junior College A, Student R passes ten (10) hours with a 1.4 GPA. Student R transfers to a four-year college and enrolls in ten (10) hours during a nine (9) week summer session. At the completion of the summer session, Student R receives ten (10) hours with a 2.0 GPA.

If Student R transfers to Junior College B, which is located within his/her home district, would he/she be eligible after serving the remaining eight weeks at Junior College B?

ANSWER:

No. The probationary period can not be served at two different colleges. Therefore, Student R would be required to complete one term and serve the eighteen (18) calendar weeks at Junior College B. To rule otherwise would have the effect of circumventing the rule pertaining to transferring from one junior college to another which is located within the home district, county, or service area.

If Student R attends a four-year college, or non-member college, for eighteen (18) calendar weeks or longer and passes 10 hours with a 1.5 GPA, he/she would be immediately eligible at Junior College B without serving a probationary period.

CASE VIII

Double Transfer

SITUATION:

Student R attends NJCAA member Junior College A during the fall term and completes the term passing 9 of the 12 hours of original enrollment. During the spring term, Student R attends a four-year college and completes the term passing 10 hours with a 3.0 GPA.

The next enrollment for Student R is the following fall term at Junior College B, which is not his/her home district college.

Is Student R immediately eligible to participate in athletics based on the fact that he/she left the four-year college eligible?

ANSWER:

No. The fact that Student R transferred from Junior College A ineligible will require a probationary period of one full academic year at Junior College B. The probation cannot be served at two different colleges; therefore, Student R's attendance at the four-year college will not reduce the probation at Junior College B.

CASE IX

Ineligible Transfer

SITUATION:

Since Junior College A does not have an intercollegiate tennis team, Student R decides to transfer to Junior College B which has such a program.

If Student R did not pass 10 hours in the last term as a full-time student at Junior College A, can he/she re-establish eligibility at Junior College B by passing a minimum of 10 hours with a 1.5 GPA?

ANSWER:

No. Student R would now be required to serve a probationary period at Junior College B as a full-time student because of his/her academic performance during the last term at Junior College A.

CASE X

Parents Move

SITUATION:

Student R attends Junior College A which is located within the same city of his/her parents residence. During the first year the student's father who is employed by the Veteran's Administration is transferred to a regional office in another city. Student R successfully finishes the first year at Junior College A and then transfers to Junior College B, which is located in the same city of his/her parents new domicile.

Is Student R eligible to compete in the intercollegiate athletic program at Junior College B without serving the probationary period required by this Section?

ANSWER:

Yes. This is a classic example of a student having to transfer from one junior college to another "for reasons beyond his/her control" and therefore a probationary period is not required at Junior College B. However, this must be approved by the Regional Director and the Office of Eligibility prior to the student's participation.

CASE XI

One-Plus-One Program

SITUATION:

Student R initially attends local Community College A, and upon completion of the first year he/she plans to transfer to Community College B, which is located within the same state, to obtain a two-year degree that cannot be obtained at Community College A. Student R would like to participate in athletics at both colleges and states these intentions in writing prior to initially enrolling at College A.

Is Student R eligible at Community College B if all Rules of Eligibility are satisfied?

ANSWER:

Yes. The request for transfer must be made in writing to the Office of Eligibility of the NJCAA in advance of his/her initial college enrollment at Junior College A.

CASE XII

Transfer Waiver

SITUATION:

Student R attends Junior College A after graduating from high school and after two terms of attendance transfers to Junior College B. The Athletic Director and Chief Executive Administrator agree to sign a Transfer Waiver Form.

Is Student R immediately eligible to participate at Junior College B after transferring?

ANSWER:

Yes, providing Student R passed ten (10) or more hours with a 1.5 GPA or better during the last term of enrollment at Junior College A and all other provisions of the NJCAA Rules are satisfied. A probationary period is required if Student R is ineligible when transferring from Junior College A.

It should be noted that Student R would not be eligible in those sports at Junior College B which are in progress at the time of his/her transfer. (Section 5e)

CASE XIII
Transfer Waiver

SITUATION:

At the completion of one academic year, Student R transfers from Junior College A to Junior College B. During the last term at Junior College A, Student R enrolled in twelve hours but passed only nine.

If Junior College A agrees to sign the 5a (5) waiver form, would Student R be immediately eligible at Junior College B?

ANSWER:

No. Student R would be required to serve a probationary period of eighteen (18) calendar weeks if transferring back to his/her home district, or one academic year if Junior College B is not Student R's home district college.

The 5a (5) provision is valid only for those students who after initially enrolling in ten or more hours, complete a minimum of ten (10) hours with a 1.5 GPA during the term preceding their transfer.

CASE XIV
Double Transfer Waiver

SITUATION:

Student R attends Junior College A and participates as a member of their cross country team. Student R then transfers to Junior College B, which does not have a cross country program, and attends for one term. At both colleges Student R left after passing 10 hours with a 1.5 GPA.

Is it possible for Student R to be eligible at Junior College C without serving a probationary period?

ANSWER:

Yes, providing the Athletic Director and the Chief Executive Administrator at Junior College A signs a 5a (5) waiver form. Student R's transfer from Junior College B is covered under the provisions of 5a (2).

It should be noted that if Student R had not passed ten (10) hours with a 1.5 GPA at Junior College A, the full probationary period would be required at Junior College C. To rule otherwise would have the effect of circumventing the rule pertaining to transferring from one junior college to another, both of which have cross country programs.

Student R would not have to serve the probationary period if he/she transferred back to Junior College A.

CASE XV
Double Transfer Waiver

SITUATION:

Student R initially enrolls in Junior College A and at the completion of a term transfers to Junior College B. After one term at Junior College B, Student R transfers to Junior College C.

Could Student R be eligible at Junior College C since two member junior colleges are involved?

ANSWER:

Yes, providing Student R left Junior College A and Junior College B academically eligible and the 5a (5) waiver form is signed by the Athletic Director and Chief Executive Administrator from both colleges.

It should also be noted that if Student R attends Junior College B for one academic year or eighteen calendar weeks (if Junior College C is Student R's home district college), he/she would be exempt of any transfer restrictions from Junior College A.

CASE XVI

Double Transfer Waiver

SITUATION:

Following is the academic record of Student R:

Fall term — Junior College A
Spring term - Junior College B
Summer term — Junior College C
Fall term — Junior College C

At Junior College A, Student R did not pass ten (10) hours after initially enrolling in twelve (12) hours. Student R left Junior College B academically eligible. Junior College C is not located within Student R's home district, county, or service area.

Would Student R be immediately eligible at Junior College C during the Fall term, if the Athletic Director and Chief Executive Administrator at Junior College B agree to sign the 5a I (5) waiver form?

ANSWER:

No. Because Student R left Junior College A ineligible, a probationary period of one full academic year is required at Junior College C. The one academic year of probation can not be divided between Junior College B and Junior College C.

Student R could have been immediately eligible if he/she would have passed ten (10) hours with a 1.5 GPA or better at Junior College A, and the 5a I (5) waiver form had been properly signed by the administrators at both Junior College A and Junior College B.

CASE XVII

Change in Curriculum

SITUATION:

Student R enrolls in Junior College A in the Business Administration curriculum. After the first year, Student R enrolls at Junior College B to pursue a course of study in Police Science rather than Business Administration as Junior College A did not have a Police Science Curriculum.

Is Student R eligible to compete in the intercollegiate athletic program at Junior College B without serving the probationary period required by this Section?

ANSWER:

Yes, providing Student R passes ten (10) hours with a 1.5 GPA or better during the last term of enrollment at Junior College A, the 5a (5) waiver form is properly signed by the Athletic Director and Chief Executive Administrator at Junior College A, and all other provisions of the Rules of Eligility are satisfied.

CASE XVIII

Transfer After Withdrawal

SITUATION:

Student R, a resident of County X, enrolls in Junior College A in County Y. Within fourteen calendar days after the first scheduled day of classes, Student R withdraws and returns home in County X. While at Junior College A, Student R did not participate in any regular scheduled athletic contests.

Is Student R eligible to compete in the intercollegiate athletic program at the junior college in County X?

ANSWER:

Yes. Student R is immediately eligible to compete in the intercollegiate athletic program at the junior college in County X, providing he/she is in regular attendance within fifteen calendar days from the beginning of the term.

CASE XIX

Transfer After Withdrawal

SITUATION:

Student R transfers from Junior College A to Junior College B. Would Student R be immediately eligible at Junior College B if he/she withdrew from Junior College A within fifteen (15) calendar days in his/her initial term of attendance and enrolled at anytime in Junior College B which is located in Student R's home district?

ANSWER:

Yes. The withdrawal provision of Section 5a II (6) allows students to completely withdraw during their initial term of attendance and enroll at the beginning of any term in their home district junior college.

CASE XX

Transfer After Withdrawal During Second Term

SITUATION:

Student R enrolls and attends classes at the beginning of his/her second term at Junior College A. Would Student R be eligible if he/she withdraws within fifteen (15) calendar days from the beginning of the term and transfers to Junior College B which is located within his/her home district?

ANSWER:

No. The withdrawal provision is applicable only during the first term of a student's college enrollment.

CASE XXI

Transfer Who Withdrew From Full-Time to Part-Time

SITUATION:

During the initial term of college attendance at Junior College A, Student R enrolls in twelve hours and within fifteen days from the beginning of the term drops a three hour class. At the completion of the term Student R passes nine (9) hours with a 3.0 GPA.

Would Student R be immediately eligible if he/she transfers to Junior College B in a subsequent term?

ANSWER:

No. Once a student enrolls full-time he/she must complete the term before transferring with the exception of a student who completely withdraws within fifteen (15) calendar days in the initial term of attendance and transfers back to his/her home district junior college.

CASE XXII

Transfer After College Adds Sport

SITUATION:

Student R competes in the track program during the first academic year at Junior College A. Junior College B, which is located in Student R's home

district, adds track to their existing athletic sports program.

Can Student R transfer and be immediately eligible without serving a probationary period or having a waiver form signed by Junior College A administrators?

ANSWER:

No. Student R would not be eligible as the addition of one sport to an existing athletic program would not qualify him/her under the provisions of Section 5a II (8).

SECTION 5b

CASE I

Double Transfer

SITUATION:

Student R attends Junior College A during the fall semester and a four-year college during the spring semester. At both colleges Student R satisfied the academic requirements passing at least 10 hours with a GPA of 1.50 or better.

Could Student R be immediately eligible if he/she transfers to Junior College C?

ANSWER:

Yes. It will be necessary, however, for Student R to satisfy the transfer provisions from both Junior College A and the four-year college. Attendance at Junior College A would not affect Student R's transfer if he/she would have attended the four-year college for one academic year, or eighteen calendar weeks if Junior College C is located in his/her home district.

CASE II

Double Transfer

SITUATION:

Student R initially enrolls at Junior College A and attends for one (1) semester. Student R transfers to a four-year college and successfully completes one (1) semester. The third semester Student R transfers to Junior College B, which is not located in his/her home district, county, or service area.

After attending one full semester at Junior College B, is Student R automatically eligible to begin participation in athletics?

ANSWER:

No. Even though Student R has not participated in athletics for an academic year, he/she is still considered a transfer from Junior College A. For Student R to be immediately eligible at Junior College B, he/she must transfer from Junior College A under one of the provisions of Section 5a and transfer eligible from the four-year college.

CASE III

Probation — 18 Calendar Weeks

SITUATION:

In the last term of attendance at a four-year college, Student R enrolled for fifteen but passed only nine hours of work. The following fall Student R enrolled in Junior College A, which provides two (fall and spring) semesters of approximately fifteen weeks each, with a vacation period of about four weeks between semesters.

Is the vacation period taken into account in computing the eighteen week probationary period?

ANSWER:

Yes. The eighteen week probationary period is computed by counting the actual number of full weeks (7 days) from the first day of class in which such a student enrolls full-time. Vacation periods or any days off from college attendance can be included in the eighteen weeks.

CASE IV

Transfer After 3 Semesters

SITUATION:

After successfully completing three semesters at a four-year institution, Student R decides to transfer to Junior College B.

Will Student R be eligible to compete in their tennis program during the spring term?

ANSWER:

Yes, provided Student R is enrolled at Junior College B during the term which the tennis schedule begins. Also, Student R must leave the four-year college academically eligible and not have participated in tennis two previous seasons.

CASE V

Participate in Same Sport, Same Year

SITUATION:

Student R transfers from College A, a four-year institution, to Junior College B at the end of the fall quarter, and in time for winter quarter enrollment. At College A, he/she participated in one junior varsity basketball contest.

Is Student R eligible to participate in basketball at Junior College B, which begins its schedule during the winter quarter?

ANSWER:

No. Participation in the basketball game at College A before transferring exempts Student R from being eligible for basketball at Junior College B.

Student R would be eligible, however, for any other sport which begins during the winter quarter at Junior College B, providing he/she passed a minimum of ten (10) hours with a 1.5 GPA during the last term at College A.

CASE VI

Participate in Same Sport, Same Year

SITUATION:

At the completion of the fall term, Student R transfers from College A, a four-year institution, to Junior College B. Both College A and Junior College B provide for a fall and spring golf season.

If Student R participated in fall golf at College A, is he/she eligible to participate in spring golf at Junior College B, providing he/she meets all other provisions of the Eligibility Rules when transferring?

ANSWER:

Yes. Student R is not participating in the same sport because Fall Golf is considered a separate sport season from Spring Golf. Section 10 provides for both Fall and Spring seasons in the following sports: Baseball, Golf, Softball/Fast Pitch, Softball/Slow Pitch, and Tennis.

CASE VII

Transfer After Withdrawal to Part-Time

SITUATION:

Four-year College A begins its term on September 1. According to their academic policy, students are allowed to drop and add classes until September 20 without any penalty.

Student R initially enrolls in twelve (12) hours and drops to nine (9) hours on September 10. At the completion of the term, Student R receives nine (9) hours of A grades.

Would Student R be immediately eligible if he/she transfers to Junior College B for a subsequent term if all other provisions of the Rules are satisfied?

ANSWER:

No. Student R will be required to serve a probationary period of eighteen calendar weeks at Junior College B. Once a student enrolls in ten (10) or more hours and attends one class, the term must be completed passing a minimum of ten (10) hours with a 1.5 GPA, with one exception found in Section 5b (3), which provides for a complete withdrawal.

CASE VIII

Ineligible Transfer

SITUATION:

Student R attends non-member Junior College A for two terms. The last term of attendance at Junior College A, Student R receives 9 hours of C's and 3 hours of W's (withdrawals).

Is Student R eligible at Junior College B, an NJCAA member college, after completing one term with ten hours of passing grades and a 1.5 GPA?

ANSWER:

No. Students transferring ineligible from either a four-year college or a non-member junior college are ineligible until *they complete one term* and a probationary period of eighteen calendar weeks has been served at the college to which they are transferring.

CASE IX

Withdrawal After Participation

SITUATION:

Student R initially enrolls in a four-year school and prior to the first day of classes he/she participates in a cross-country meet. After the third scheduled day of classes, Student R officially withdraws from the four-year school and immediately enrolls in Junior College A, his/her home district college.

Is Student R eligible to compete in the intercollegiate athletic program at Junior College A, without serving a probationary period of eighteen calendar weeks?

ANSWER:

No. The fact that Student R participated in a scheduled athletic event at the four-year college before withdrawing will require *the completion of one term* and a probationary period of eighteen calendar weeks at Junior College A.

CASE X

Transfer After Withdrawal — 2nd Term

SITUATION:

Student R completes one term at four-year College A, passing 10 hours

with a 3.0 GPA, and subsequently transfers to four-year College B for the beginning of a second term. After attending one day of classes as a full-time student, Student R withdraws from College B in time to enroll in his/her home district junior college during the same term. Student R did not participate in athletics at either of the four-year colleges.

Is Student R eligible to compete in athletics at the Junior College?

ANSWER:

No. Once Student R enrolled in 10 or more hours at four-year College B and attended one class, he/she must complete the term and pass a minimum of ten (10) hours with a 1.5 GPA in order to transfer to a junior college. The fifteen day withdrawal rule applies only to a student's initial term of attendance in college.

CASE XI

Transfer After 15 Days

SITUATION:

Student R initially enrolls in four-year College A, which begins its term on September 1. On September 18, Student R withdraws from College A and enrolls at Junior College B, which begins on September 20.

Is Student R eligible to participate in cross-country at Junior College B?

ANSWER:

No. Section 5b (3) requires that a student withdraw within 15 calendar days from the beginning of the term.

CASE XII

Transfer to Home District After Withdrawal

SITUATION:

Student R initially enrolls at a four-year college after graduating from high school. Fourteen days after the beginning of classes, Student R decides to transfer back to his/her home district Junior College A to participate in cross-country. Junior College A will not allow Student R to enroll for the fall term because of a deadline for new enrollees, and as a result he/she waits until the fall term of the following calendar year.

Is Student R immediately eligible to participate in cross country at Junior College A the following year?

ANSWER:

Yes. Student R does meet the provisions of this Section and is immediately eligible at Junior College A.

It should be noted that students who withdraw within fifteen calendar days in their initial term of attendance can enroll at any time in their home district Junior College.

SECTION 5c

CASE I

Non-College Attendance — 12 Months

SITUATION:

Student R attends Junior College A for three semesters. The last term he/she receives F's in twelve of the fifteen hours of enrollment and is academically dismissed from the college. After one year of non-college attendance, Student R is permitted to enroll in 6 hours of remedial courses at Junior College B, and the following term enrolls as a full-time student. The time span between Student R's last enrollment as a full-time student until the next full-time enrollment is 18 calendar months.

Is Student R eligible to participate in sports at Junior College B?

ANSWER:

Yes. Student R does meet the provisions of this Section because the time span between full-time enrollments (10 or more hours) at Junior College A and Junior College B was eighteen calendar months.

CASE II

Non-College Attendance — 18 Months

SITUATION:

Student R withdrew from Junior College A after one quarter establishing an accumulative GPA of 1.42. After a lapse of four years, Student R enrolls again at Junior College A.

After re-enrollment, is Student R eligible to compete in the inter-collegiate athletic program at Junior College A?

ANSWER:

Yes. A student who does not attend college for eighteen (18) calendar months is exempt from the provisions of Section 1b.

SECTION 5d

CASE I

Discontinue Sport

SITUATION:

Student R is enrolled in Junior College A and during the first year competes in football and basketball. At the end of the year the school discontinues football.

May Student R transfer to Junior College B for the second year and be eligible to play football without serving a probationary period at Junior College B?

ANSWER:

Yes, providing Student R passes ten (10) hours with a GPA of 1.5 or better during the last term at Junior College A. Student R may not, however, compete in basketball, or any other sport that was not specifically discontinued by Junior College A during the year, unless Junior College A agrees to release him/her under the provisions of Section 5a I (5) or 5a II (5).

CASE II

College Discontinues

SITUATION:

Junior College A discontinues as a college institution at the completion of the academic year. Can students enrolled at Junior College A transfer to any Junior College of their choice and be immediately eligible to participate in sports?

ANSWER:

Yes. All students will be immediately eligible at the Junior College of their choice, providing they pass ten hours with a 1.5 GPA during their last term of attendance, and they meet all other provisions of the NJCAA Rules of Eligibility.

Students transferring ineligible must *complete one term* and serve a probationary period of eighteen calendar weeks as full-time students.

SECTION 5e

CASE I

Joining Team After Season Begins

SITUATION:

Student R passes ten hours with a GPA of 2.54 during the first quarter at Junior College A, and decides to join the basketball team at the beginning of the second quarter.

Assuming that basketball spans the first and second quarters at Junior College A, is Student R eligible to participate?

ANSWER:

Yes. Even though the sport was in progress, Student R was enrolled as a full-time student in Junior College A at the beginning of the basketball season and is therefore immediately eligible.

CASE II

New Enrollee — Season in Progress

SITUATION:

Junior College A begins their basketball season on November 16. Their fall quarter ends on November 16 and the winter quarter begins on November 28.

Can Student R, a new enrollee for the winter quarter, participate as a member of Junior College A's basketball team?

ANSWER:

No. The basketball season began during the fall quarter, which did not end until midnight November 16. It should be noted that eligibility information must be submitted for both fall and winter quarters.

CASE III

Participation Between Terms

SITUATION:

Junior College A begins their basketball season on November 26. Their fall quarter ended on November 22, and the winter quarter will begin on December 1. Student R has not attended any college since his/her high school graduation and plans to enroll for the winter quarter.

Is Student R eligible to begin participation on November 26?

ANSWER:

Yes. If for some reason Student R does not enroll as a full-time student during the winter quarter, all games which Student R was a participant must be forfeited.

CASE IV

Joining Team After Part-Time Enrollment

SITUATION:

Student R enrolls in twelve (12) hours at Junior College A at the beginning of the fall term. Within fifteen (15) calendar days, Student R withdraws from a three hour course.

Would Student R be eligible to participate on Junior College A's basketball team at the beginning of the spring term if the season schedule began during the fall term?

ANSWER:

No. Student R's status during the fall term is that of a part-time student even though he/she initially enrolled as a full-time student.

It should be noted that Student R would be eligible for any other sport which began its schedule during the spring term.

CASE V

First Opportunity for Enrollment

SITUATION:

After completing one academic year at Junior College A, Student R enlists in the military service. Student R serves 24 months and is released from the military with an honorable discharge.

Student R was released in time to enroll in Junior College B for the fall term. However, the student decides to wait until the next term to enroll in order to earn money to attend college.

Is Student R eligible to participate in basketball, which spans over the fall and spring term?

ANSWER:

No. Section 5e (1) requires students to enroll at the first possible enrollment date following their official release from the service.

CASE VI

First Opportunity for Enrollment

SITUATION:

Student R returns from a religious mission on September 22 and would like to enroll at Junior College A. Because September 22 was beyond the cutoff date for enrolling new students, Student R was not allowed to enroll until January 10. As a result, Student R enrolls in a four-year college located in his/her home town.

If Student R transfers to Junior College A for the second term, would he/she be eligible to participate in those sports which began during the first term?

ANSWER:

Yes. In this particular case, Student R would be enrolling at Junior College A on the first possible opportunity following the release from a religious mission, and therefore eligible under the provisions of Section 5e (1). Prior approval should be granted by the Office of Eligibility.

CASE VII

Mid-Year High School Graduate

SITUATION:

Student R graduates from high school in January and enters Junior College A shortly thereafter for the beginning of the spring semester.

Is Student R eligible to play basketball, which spans the fall and spring semesters?

ANSWER:

Yes. Student R is eligible to play immediately, even though basketball spans both semesters, as he/she enrolled as a full-time student on the first possible enrollment period following his/her official graduation from high school.

CASE VIII

New Enrollee — Season in Progress

SITUATION:

Student R, a June high school graduate, enrolls in Junior College A the following spring semester, not having previously attended any other college.

Is Student R eligible to compete on Junior College A's basketball team, which has a schedule that spans both the fall and spring semester?

ANSWER:

No. Student R is ineligible to compete in basketball, during the spring semester, as the first possible enrollment period into Junior College A following the student's official graduation from high school was the fall semester.

SECTION 8

CASE I

Competition Against Four-year or Non-Members

SITUATION:

Junior College A competes against four-year college's junior varsity teams, as a part of their regular basketball schedule.

Can Junior College A allow students, who are not eligible, to participate in those contests with the four-year college junior varsity teams?

ANSWER:

No. All students participating in contests which are sponsored by the NJCAA must meet all provisions of the Rules of Eligibility. This is applicable to junior colleges who are competing against non-member junior colleges or junior varsity teams from four-year colleges, whose eligibility rules are less restrictive

SECTION 9a

CASE I

Playing Two Sports at Same Time

SITUATION:

Student R, a basketball player at Junior College B, would like to compete in an indoor track meet during basketball season.

Would Student R's participation in the indoor track meet jeopardize his/her eligibility to continue playing basketball?

ANSWER:

No. Since this section refers to students competing in the same sport for two different teams, Student R would be eligible to compete in both basketball and track for Junior College B.

CASE II

Individual Participation in Non-Scheduled Events

SITUATION:

Student R is a member of the cross country team at Junior College A. While the cross country season is in progress, Student R enters a cross country meet which is not a part of Junior College A's schedule.

Can Student R participate in such an event without an NJCAA sanction?

ANSWER:

Yes. Student R may participate in the cross country meet without an NJCAA sanction, providing he/she does not in any way represent Junior College A. Student R may not wear the college uniform, nor shall the college pay the entry fee or any expenses related to the event.

CASE III
Participation on Two Different Teams

SITUATION:
While a member of College A's basketball team, can Student R participate with any team other than his/her college team?

ANSWER:
No. This section prohibits participation on any team other than the college team while the season of a sport is in progress.

CASE IV
Participation While Suspended

SITUATION:
Junior College A submits their eligibility information for basketball, and included on the form are names of two students who are suspended from the team before the first scheduled basketball contest. During the suspension period, the students are allowed to practice, but are not allowed to participate in any contests.

During the suspension period, both students participate with an amateur basketball team. Are these students eligible after they are reinstated to Junior College A's basketball team, if they terminate their participation on the team?

ANSWER:
Yes. These students are eligible if they did not at any time suit up for any of Junior College A's games while participating with the outside team.

Participation in Section 9 shall include suiting up for a contest.

SECTION 9b

CASE I
Sanctioning of Open Events

SITUATION:
Junior College A desires to enter its track and field team in a meet sponsored by the United States Track and Field Federation.

Must it receive official sanction from the Office of Eligibility before entering such a meet?

ANSWER:
No. While the Section provides that no member college or student/athletes of a member college may participate on an All-Star team, in an open meet or a similar contest unless sanctioned by the Office of Eligibility, such sanction is not necessary for contests sponsored by federations in which the NJCAA is an affiliate member, such as the United States Track and Field Federation.

CASE II
Participation in Open Meets

SITUATION:
Junior College A enters students in an open wrestling tournament which is not included as a part of their regular season schedule. The college provides transportation and pays the entry fees for the students.

Can Junior College A enter students in this tournament who are not academically eligible?

ANSWER:

No. Only those students who satisfy all provisions of the NJCAA Rules of Eligibility shall be allowed to compete in the open tournament. Any type of competition which students represent the college must either have an NJCAA sanction or be a part of the college wrestling schedule.

SECTION 10a

CASE I

Non-Certified Sports

SITUATION:

Junior College A has a water polo team which competes against other junior colleges pursuant to a regular publicized schedule.

Must the members of the team meet the requirements of the Eligibility Rules in order to be eligible to compete in this program?

ANSWER:

No. Water polo is not one of the sports certified in this Section and therefore is not governed by the Eligibility Rules.

CASE II

Fall and Spring Sports Seasons

SITUATION:

Junior College A sponsors Fall and Spring seasons in baseball, golf, softball and tennis.

Is there a date which determines the beginning of the Spring season and the end of the Fall season?

ANSWER:

SECTION 10b

CASE I

Club Team and Regional Competition

SITUATION:

Junior College A's wrestling season spans over two terms. At the beginning of the season, Junior College A filed an NJCAA Club Form.

Can students compete in the regional tournament held during the second term, if they were not in attendance at Junior College A during the first term?

ANSWER:

No. Only those students who were eligible during the entire season schedule can compete in the regional qualifying events in those sports listed in Section 10b (1).

CASE II

Club Declaration

SITUATION:

Junior College A designates fall golf as a club sport.

Can Junior College A participate as a team on an intercollegiate varsity level during the spring?

ANSWER:

Yes. Fall golf is considered as a separate sport season from the Spring golf season. Conversely, a college may declare Spring golf as a club sport and participate as a varsity team during the Fall season.

Fall and Spring seasons exist in Baseball, Softball/Fast Pitch, Softball/Slow Pitch, and Tennis.

CASE III

Individual Competition After Club Designation

SITUATION:

Junior College A files an NJCAA club form for wrestling prior to the season schedule.

At the completion of one season, can Junior College A enter as a team in the Regional Tournament?

ANSWER:

No. Once a college competes on a club basis, the NJCAA has no jurisdiction over that team and they cannot compete in any NJCAA-sponsored post-seasonal tournaments.

Only individuals from a college team who were eligible by NJCAA Rules during the season can enter the regional qualifying tournament in the following sports: bowling, cross country, golf, gymnastics, indoor track and field, judo, outdoor track and field, snow skiing, swimming, tennis, or wrestling.

An eligibility form listing the individual(s) must be submitted ten (10) days prior to the event.

CASE IV

Varsity and Club Teams in the Same Sport

SITUATION:

Can a junior college athletic department sponsor a club team and an intercollegiate varsity team in the same sport?

No. A college must either compete on a club basis or on an intercollegiate varsity level in any one sport. A college competing on a varsity level may sponsor more than one team, such as a junior varsity team. All members of such teams must meet the NJCAA Rules of Eligibility.

SECTION 11

CASE I

SITUATION:

Junior College A uses a player w'o did not pass a physical examination in compliance to this Section.

Does this subject the College and/or the person involved to any penalty or sanctions?

ANSWER:

Yes. Junior College A must forfeit all the games in which the player competed. In addition, if it can be proved that this was done knowingly, the College and/or the person involved may be subject to the penalties of Sections 6 and 16 of the Eligibility Rules.

CASE II

Date of Physical Examinations

SITUATION:

In order to meet the entrance requirements of Junior College B, high school Student R receives a physical exam on March 15, 1978.

Will this physical exam meet the provision of Section 11 qualifying Student R to compete in all sports for the 1978-79 school term?

ANSWER:

The physical examination date of March 15 will qualify Student R to participate in those sports which have their first scheduled contest on or before March 15 of the 1978-79 collegiate year.

It will be necessary for Student R to be re-examined for those sports which begin their season schedule after March 15.

SECTION 12

Must Junior College A file a basketball eligibility form with the NJCAA office and the Regional Director for the fall term?

ANSWER:

Yes. The first basketball game was played during the fall quarter; therefore, the college must submit eligibility information on or before the first regularly scheduled contest. If the game would have been played on November 16 instead of November 15, the eligibility information would be necessary twenty-one (21) days from the date of the first regularly scheduled contest.

CASE III

Seasons Which Begin Between Terms

SITUATION:

At Junior College A the Winter term ends on March 15 and the Spring terms begins on March 20. The first track and field meet is scheduled for March 16.

SITUATION:

Spring term at Junior College A ends on May 1. The last baseball game, as shown on Junior College A's published schedule, is May 12.

Is it necessary for Junior College A to resubmit eligibility information since most of the students will not enroll in summer school?

ANSWER:

Yes. Because the last regularly scheduled game at Junior College A extends beyond the end of the spring term, it is necessary for them to resubmit eligibility information. Those students who become ineligible as a result of the last terms grades can not compete beyond ten days after the end of the spring term.

The only information necessary on the eligibility form is (1) the names of the participants, (2) number of hours earned last term, (3) grade point average earned last term, and (4) student's signatures.

SITUATION:

After one term of attendance at a four-year college, Student R transfers to Junior College A. The four-year college does not release Student R's transcript.

The decision to waive the transcript will be made upon written request from the Athletic Director.

SECTION 13e

CASE I

When is it necessary for Junior College A to submit eligibility information to the Regional Director and the Office of Eligibility?

ANSWER:

Eligibility information must be postmarked ten (10) days before the qualifying or National Tournament. This will allow time for the information to be checked and approved before competition begins.

SECTION 15

CASE I

Using an Ineligible Player

SITUATION:

After the basketball season, Junior College A learned that Student R, who had participated in all of the games, was ineligible. An investigation revealed that Junior College A had no knowledge until after the season that Student R was ineligible, and in reality had used due diligence in checking the eligibility of each player prior to the start of the season.

Must Junior College A forfeit all of the games in which Student R participated?

ANSWER:

Yes. The penalty for using an ineligible player is forfeiture of all of the games in which such player participated, even though it was not done knowingly by the school and/or the student.
